Appointments and promotions in State Service.

Issues general rules for regulating—

READ—

Paragraph 8 of G. O. No. 1827-80—E. A. G. 380, dated 16th May 1921, directing the revision of the clerkship examination rules.

ORDER No E. A. 2013-92—E. A. 14-21-6, DATED 28TH NOVEMBER 1921.

The following general rules are issued for regulating appointments to posts in superior service of Government.

(1) No person who is not a native of Mysore by birth or domicile shall be entertained in the service without the permission of Government.

(2) No person who cannot read and write Kannada with facility shall be appointed to superior service without the permission of Government.

(3) Rules prescribing general educational qualifications for posts in any department shall be deemed to apply only to candidates recruited direct to those posts. Such rules shall not debar the promotion from the lower ranks of officials otherwise duly qualified for higher posts.

(4) Promotions in all departments shall ordinarily be made according to seniority combined with capacity and character. If the supersession of any person is found necessary, the sanctioning authority shall record his reasons therefor.

(5) The preference given as a temporary measure to candidates of backward communities in paragraph 6 of the G. O. of the 16th May 1921 shall apply only to cases of direct recruitment. Such preference shall not extend to promotions.

2. Separate orders will issue in the matter of regulating recruitment to the different kinds of appointments, and also appointments in different departments of Government.

3. The clerkship rules prescribed in G. O. No. 172—E. A. G., dated 15th March 1917, are hereby cancelled.

K. MATTHAN,
Chief Secretary to Government.

Vacancies in the Ministerial Ranks of Superior Service.

Issues supplementary instructions for regulating the filling up of——in the State.

READ—

Para 2 of Government Order No. E. A. 2013-92—E. A. 14-21-6, dated 28th November 1921, issuing general instructions in regard to appointments and promotions in the State Service.

ORDER NO. E. A. 2093-172—E. A. 14-21-7, DATED 28th NOVEMBER 1921.

Government are pleased to issue the following supplementary instructions for regulating the filling up of vacancies occurring in the ministerial ranks of the superior service.

2. All ministerial appointments will for the purposes of this order be divided into four classes as below:—

(1) Appointments carrying a pay not exceeding Rs. 20.
(2) Appointments carrying a pay exceeding Rs. 20 but not exceeding Rs. 30.
(3) Appointments carrying a pay exceeding Rs. 30 but not exceeding Rs. 40.
(4) Appointments carrying a pay exceeding Rs. 40.

3.(*a*) All vacancies occurring in class (1) shall be filled up by direct recruitment.

(*b*) Out of every three vacancies occurring in each of the other classes, the first two shall be filled up by direct recruitment and the third by promotion of qualified candidates from class 1, 2 or 3 respectively.

Posts on progressive salaries will be treated as falling in the class in which the pay granted to the candidate on appointment falls. Ordinarily, direct recruitment will be only to the posts on the lowest pay in each class. When vacancies occur in posts on higher pay, the officials on lower pay in the same class may be promoted seriatim and the vacancy caused by the promotion of the official on the lowest pay in that class may be filled up by direct recruitment. But candidates who are shown by the Central Recruitment Board in their lists as eligible to salary higher than the minimum of a class may be appointed on such higher salary. For example, a graduate in Arts and in Law may be shown in the Board's lists as eligible to a post on Rs. 60 and it will be open to an officer to appoint the candidate to a post on Rs. 60 direct, notwithstanding the other instructions in paragraphs 2, 3 and 4 of this order. Also candidates who possess qualifications which entitle them to appointments in a higher class according to para 4 of this order but are willing to accept appointment in a lower class may be appointed on pay higher than the minimum of such lower class.

4. The minimum educational qualifications for direct recruitment to the several classes shall be as follows:—

FOR CLASS 1- A pass in the Lower Secondary Examination or a certificate of having studied in the V Form of a recognised Kannada or English High School,

Note.—In very exceptional cases, candidates who have not passed the Lower Secondary Examination may also be permitted by the Board to be appointed to this class.

FOR CLASS 2.—A completed S. S. L. certificate.

Note.—Those who have passed the Entrance Examination of the Mysore University will be treated as on the same footing as those holding a complete S. S. L. certificate.

FOR CLASS 3- A pass in the first year B. A. Examination of the Mysore University or in the Intermediate Examination of a recognised University.

FOR CLASS 4- A degree of the Mysore University or of any other recognised University.

5. In calculating the proportion of vacancies to be filled up by direct recruitment, all appointments falling within the powers of the sanctioning officer shall be taken into account. For example, all posts between Rs. 25 and Rs. 50 in the Revenue Department, whether in the District, the Sub-Division or the Taluk Offices shall be considered as one cadre, since all these fall within the powers of appointment vested in the Deputy Commissioner.

6. The above rules shall be subject to such other orders as may be passed by Government from time to time prescribing the qualifications required for particular posts.

7. The minimum educational qualifications prescribed in Rule 4 above, as well as the preference to be shown, as a temporary measure, to members of backward communities under para 6 of Government Order No. 1827-80- E. A. G. 308, dated 16th May 1921, wil apply only to recruitment of new candidates to the service. Promotions from lower ranks will be governed by seniority, combined with capacity and character, irrespective of the general educational qualifications of the official or the community to which he belongs.

K. MATTHAN,
Chief Secretary to Government.

Attachment of the Alur Sub-Taluk to the Hassan Taluk.

READ—

Correspondence ending with letter No. C. 1058—Gl. 21-22, dated 16—18th November 1921, from the Revenue Commissioner in Mysore, requesting for reasons stated, that the Alur Sub-Taluk may continue to be attached to the Hassan Taluk, under the Treasury Assistant Commissioner, Hassan, till it is converted into a *pucca* Taluk.

ORDER No. R. 2843-903—L. R. 135-21-10, DATED 2ND DECEMBER 1921.

Sanctioned.

D. SRINIVASIENGAR,
Offg. Secretary to Government,
Revenue Department.

Scholarships.

Passes orders on the systematisation of the scheme of —— tenable in the State and in British India.

READ—

Correspondence ending with Government Order No. 10777-83—Edn. 165-16, dated the 7th May 1921, appointing a committee to submit proposals for revising the various schemes of scholarships awarded in the State.

2. Letter No. H. C. 668 of 1920-21, dated the 4th June 1921, from the Inspector-General of Education submitting the proposals of the special committee constituted in the Government Order read above.

ORDER No. 2210-24—EDN. 532-20-4, DATED 3RD DECEMBER 1921.

The question of systematizing the various schemes of scholarships in the State has been under the consideration of Government for some time past. The expenditure on scholarships has been steadily increasing since 1890-91 and has risen from Rs. 21,404 in 1890-91 to Rs. 3,65,398 in 1921-22. Scholarships paid from State Funds may broadly be classified into

(i) those tenable in and outside the State but within British India ; and

(ii) those tenable in foreign countries.

The revision of the scheme of Foriegn scholarships formed the subject of a separate order issued in May 1920. The former may again be subdivided into :

(*a*) those meant for general education comprising the Primary, Secondary and University grades, and

(*b*) those available for technical courses of study in local institutions or for professional courses in institutions in British India.

2. In the early stages, scholarships were provided in the lower grades of education only to women, pupils of the depressed classes and special communities such as the Mahomedans and the Pallegars. In the higher grades, provision was made only in the Arts Colleges for five merit scholarships and a few stipends ranging in value from Rs. 1-8-0 to Rs. 5-0-0 per mensem. In 1914 one hundred scholarships of Rs. 5 each were instituted from Village School Funds to enable intelligent pupils in taluk stations to continue in the IV and V Vernacular standards. So far as technical and professional education was concerned a few stipends were awarded in the local institutions and also in technical and professional colleges in British India for the study of subjects for which no provision existed locally. On the introduction of the Honours Course in the Madras University, Government sanctioned a few scholarships to enable deserving young men to prosecute higher studies in the Colleges outside the State and in 1913 two scholarships were sanctioned for pupils studying Logic in the B. A. Course in Colleges in British India.

With the reorganisation of Industrial, Technical and Women's Education and of the Normal institutions in 1913 and 1914, liberal stipends on a large scale were sanctioned for pupils in the technical and industrial schools and the scholarships provided for girls were also increased. The allotment for women's scholarships has since been augmented by the provision of scholarships tenable in Primary and Lower Secondary classes and in the District Headquarter Girls' Schools sanctioned in 1915 and 1918 respectively. To induce private candidates to undergo the Upper Secondary and the training courses and thus meet the requirements of the Department, Government sanctioned a liberal scale of stipends in 1918.

No. 2210-24—EDN. 532-20-4, DATED 3RD DECEMBER 1921.

With a view to promote education among the educationally backward communities an annual allotment of a lakh of rupees has been made since 1917 for awarding scholarships in all grades of education to members of these communities and of this allotment a sum of Rs. 15,000 was reserved for the depressed classes in the vernacular primary and lower secondary stages and in industrial classes. A further allotment of Rs. 15,000 has also been sanctioned for pupils of the depressed classes for studying English.

3. The Education Committee of the Economic Conference submitted in May 1917 a scheme for the revision of scholarships, the main features of which were that

(i) a total allotment of Rs. 3 lakhs should be provided inclusive of the allotment of Rs. one lakh for scholarships to the backward classes.,

(ii) the scholarships should be classified under two heads, *viz.*, (1) open, *i.e.*, available to all classes on consideration of merit only and (2) close, *i.e.*, reserved for special communal groups on grounds of poverty and merit.

Government considered that the best method of encouraging middle school education was not by increasing the number of scholarships but by making middle school education free. As regards higher grades they directed that merit scholarships for all classes and special scholarships on a community basis for combined merit and poverty might be introduced, and accordingly referred the scheme of scholarships to the Inspector-General of Education for further revision on these lines. The Inspector-General of Education consulted the Board of Education and the scheme sent up by him was referred to the University for opinion regarding the scholarships proposed for University courses. The revised proposals submitted by the Inspector-General of Education, the Board of Education, and the University were considered by Government and with a view to co-ordinate the several schemes of scholarships and to reduce the expenditure on scholarships in view of financial stringency, a Committee composed of the Inspector-General of Education and representatives of the University, the backward communities, and Women's education was constituted to examine in detail the various schemes of scholarships tenable within and outside the State except Foreign Scholarships and submit detailed proposals.

4. The recommendations of the Committee as regards the general principles for the grant of scholarships are as follows:—

(1) That all scholarships in the Primary and Kannada Lower Secondary grades be abolished except those meant for Depressed Classes which should be administered as a special fund and under special rules.

"(2) That girls' scholarships be made tenable to girls studying in boys' schools also, *i.e.*, that scholarships should not be attached to particular institutions but to grades of Education."

"(3) "That the term "widows' scholarships" be omitted and that the funds now given in this behalf be merged in the general scheme of stipends for girls' education to which widows too would be eligible."

"(4) "That a separate scale of stipends be instituted for Depressed Class girls" as in statement appended.

(5) "That the full freeships now given to the Depressed Classes and half freeships to Mahomedans and Pallegars be continued."

"(6) "That the allotment to the Maharani's High School be cut down by a third and the balance merged in the general fund for girls' stipends."

"(7) "That the backward classes scholarships fund be not reduced."

(8) "That the practice of freeships being attached to scholarships be continued."

(9) "That the number of freeships be reduced in the Entrance Classes from thirty-three and one-third to fifteen per cent and in the High School classes from 20 to 10 per cent, it being presumed that similar reductions will be effected in the University.

"(10) That the Aligarh Scholarships be reduced from 7 to 5.

(11) That the Inspector-General of Education be given a reserve fund of Rs. 2,400 to meet cases of exceptional hardship, this fund being available to the University also.

"The Committee have also suggested reduction in the number and value of scholarships now in force and recommended the abolition of the District stipends in the University and the Ayurvedic and the Unani scholarships.

No. 2210-24—EDN. 532-20-4, DATED 3RD DECEMBER 1921.

5. Government approve of the recommendations of the Committee set forth above with the following modifications: —

(1) The subject stipends will be continued but the allotment for the purpose will be reduced to Rs. 2,400.

(2) The special district stipends will be restricted to pupils of Shimoga, Kadur and Chitaldrug Districts.

(3) The present scale of freeships will be continued according to existing sanctions but the whole question of freeships will be re-examined and final orders passed in due course after consulting the University.

(4) The merit scholarships in the College of Engineering will be reduced to 8 of Rs. 15 each and the ordinary scholarships tenable in the same institution to 12 of Rs. 10 each per mensem.

(5) Scholarships tenable in the Mysore Tannery and the Mysore Pharmaceuticals will be discontinued and one Agricultural Scholarship of Rs. 40 per mensem for a Degree in Agriculture tenable for 3 years will be awarded instead of 2 of Rs. 35 each.

(6) Scholarships for private pupils in the Upper Secondary Training and Lower Secondary Training classes in the Maharani's College and the Zenana Normal School respectively may not be deleted as proposed but 6 Upper Secondary Training Scholarships of Rs. 12 and 6 Lower Secondary Training Scholarships of Rs. 10 may be retained.

(7) The scheme of scholarships for girls in all grades will be further examined and separate orders passed in due course, the existing scheme being continued for the current year.

The scheme as now sanctioned effects a saving of Rs. 81,864 per annum in the expenditure on scholarships as shown in the accompanying statement.

K. MATTHAN,
Chief Secy. to Govt.
